Adjers, G., *see* Awang, K. et al.
Allen, J.A., Chambers, J.L. and McKinney, D.
Intraspecific variation in the response of *Taxodium distichum* seedlings to salinity 203
Allen-Johnson, L., *see* Rominger, E.M. et al.
Ambasht, R.S., *see* Srivastava, A.K. et al.
Awang, K., Venkateswarlu, P., Nor Aini, A.S., Adjers, G., Bhumibhamon, S., Kietvuttinon, B., Pan, F.-J., Pitpreecha, K. and Simsiri, A.
Three year performance of international provenance trials of *Acacia auriculiformis* 147
Beetson, T.B., *see* Dunn, G.M. et al.
Berger, T.W. and Glatzel, G.
Deposition of atmospheric constituents and its impact on nutrient budgets of oak forests (*Quercus petraea* and *Quercus robur*) in Lower Austria 183
Bergmann, C., *see* Stuhrmann, M. et al.
Bhumibhamon, S., *see* Awang, K. et al.
Bi, H. and Turner, J.
Long-term effects of superphosphate fertilization on stem form, taper and stem volume estimation of *Pinus radiata* 285
Boyer, W.D. and Miller, J.H.
Effect of burning and brush treatments on nutrient and soil physical properties in young longleaf pine stands 311
Burton, A.J., *see* Reed, D.D. et al.
Büttner, V. and Leuschner, C.
Spatial and temporal patterns of fine root abundance in a mixed oak–beech forest 11
Carranza, C., *see* Catalán, L. et al.
Catalán, L., Carranza, C., González, L., Karlin, U. and Ledesma, M.
Afforestation trials with *Prosopis chilensis* (Mol.) Stuntz and *Prosopis flexuosa* D.C. in the Dry Chaco, Argentina 113
Chambers, J.L., *see* Allen, J.A. et al.
Chandrashekara, U.M. and Ramakrishnan, P.S.
Successional patterns and gap phase dynamics of a humid tropical forest of the Western Ghats of Kerala, India: ground vegetation, biomass, productivity and nutrient cycling 23
Chevrier, N., *see* Lambert, F. et al.
Chidumayo, E.N.
Effects of wood carbonization on soil and initial development of seedlings in miombo woodland, Zambia 353
Cortina, J. and Vallejo, V.R.
Effects of clearfelling on forest floor accumulation and litter decomposition in a radiata pine plantation 299
Drechsel, P. and Zech, W.
DRIS evaluation of teak (*Tectona grandis* L.f.) mineral nutrition and effects of nutrition and site quality on teak growth in West Africa 121
Dunn, G.M., Taylor, D.W., Nester, M.R. and Beetson, T.B.
Performance of twelve selected Australian tree species on a saline site in southeast Queensland 255

Forest Ecology and Management

Subject Index

Abies lasiocarpa
Arboreal lichen in uncut and partially cut subalpine fir stands in woodland caribou habitat, northern Idaho and southeastern British Columbia 195
Acacia auriculiformis
Three year performance of international provenance trials of *Acacia auriculiformis* 147
Acacia tortilis
Fruit infestation of *Acacia tortilis* (Forsk) Hyne by *Bruchidius andrewesi* Pic. (Coleoptera : Bruchidae) in the Thar desert 349
Acer saccharum
Productivity and growth efficiency in sugar maple forests 319
Afforestation
Afforestation trials with *Prosopis chilensis* (Mol.) Stuntz and *Prosopis flexuosa* D.C. in the Dry Chaco, Argentina 113
Agrisilvipastoral system
A family of segmented polynomial functions for modelling the border effect on the diameter growth of Ayous (*Triplochiton scleroxylon* K. Schum) 275
Alectoria sarmentosa
Arboreal lichen in uncut and partially cut subalpine fir stands in woodland caribou habitat, northern Idaho and southeastern British Columbia 195
Analytic hierarchy process
An approach to public participation in strategic forest management planning 75
Average taper
Long-term effects of superphosphate fertilization on stem form, taper and stem volume estimation of *Pinus radiata* 285
Azadirachta indica
Influence of rain water harvesting and conservation practices on growth and biomass production of *Azadirachta indica* in the Indian desert 329
Basal-area
A growth and self-thinning model for pure even-age stands: theory and applications 67
Biomass
Influence of rain water harvesting and conservation practices on growth and biomass production of *Azadirachta indica* in the Indian desert 329
Border effect
A family of segmented polynomial functions for modelling the border effect on the diameter growth of Ayous (*Triplochiton scleroxylon* K. Schum) 275
Branch diameter
Branch mortality and potential litterfall from Douglas-fir trees in stands of varying density 41
Branch litter
Branch mortality and potential litterfall from Douglas-fir trees in stands of varying density 41
Bruchidius andrewesi
Fruit infestation of *Acacia tortilis* (Forsk) Hyne by *Bruchidius andrewesi* Pic. (Coleoptera : Bruchidae) in the Thar desert 349
Bryoria
Arboreal lichen in uncut and partially cut subalpine fir stands in woodland caribou habitat, northern Idaho and southeastern British Columbia 195
Bur oak
Growth and N nutrition, monitored by enzyme assays, in a hardwood plantation: effects of mulching materials and glyphosate application 231
Butternut
Growth and N nutrition, monitored by enzyme assays, in a hardwood plantation: effects of mulching materials and glyphosate application 231
Casuarina equisetifolia
Nitrogen deposition in *Casuarina equisetifolia* (Forst.) plantation stands in the dry tropics of Sonbhadra, India 341
Clearfelling
Effects of clearfelling on forest floor accumulation and litter decomposition in a radiata pine plantation 299
Computer simulation
Modeling changes in habitat conditions in northern hardwoods forests of the Adirondack Mountains of New York 99
Crown development
Branch mortality and potential litterfall from Douglas-fir trees in stands of varying density 41
Crown projection area
Branch mortality and potential litterfall from Douglas-fir trees in stands of varying density 41
Crown recession

Branch mortality and potential litterfall from Douglas-fir trees in stands of varying density 41
Cylindrical form factor
Long-term effects of superphosphate fertilization on stem form, taper and stem volume estimation of *Pinus radiata* 285
Decision analysis
An approach to public participation in strategic forest management planning 75
Defence reaction
Physiological defence reactions of young beech trees (*Fagus sylvatica*) to attack by *Phyllaphis fagi* 245
Deposition of pollutant
Deposition of atmospheric constituents and its impact on nutrient budgets of oak forests (*Quercus petraea* and *Quercus robur*) in Lower Austria 183
Desert
Influence of rain water harvesting and conservation practices on growth and biomass production of *Azadirachta indica* in the Indian desert 329
Dieback
Impact of mistletoes (*Amyema miquelii*) on host (*Eucalyptus blakelyi* and *Eucalyptus melliodora*) survival and growth in temperate Australia 55
Disinfection
Impact of mistletoes (*Amyema miquelii*) on host (*Eucalyptus blakelyi* and *Eucalyptus melliodora*) survival and growth in temperate Australia 55
DRIS
DRIS evaluation of teak (*Tectona grandis* L.f.) mineral nutrition and effects of nutrition and site quality on teak growth in West Africa 121
Dry matter partitioning
Effects of light quality on gas exchange and dry matter partitioning in *Eucalyptus grandis* W. Hill ex Maiden 265
Electrical conductivity
Performance of twelve selected Australian tree species on a saline site in southeast Queensland 255
Element flux
Deposition of atmospheric constituents and its impact on nutrient budgets of oak forests (*Quercus petraea* and *Quercus robur*) in Lower Austria 183
Eucalyptus
Effects of light quality on gas exchange and dry matter partitioning in *Eucalyptus grandis* W. Hill ex Maiden 265
Even-aged silviculture
Modeling changes in habitat conditions in northern hardwoods forests of the Adirondack Mountains of New York 99
Fagus sylvatica
Spatial and temporal patterns of fine root abundance in a mixed oak–beech forest 11
Physiological defence reactions of young beech trees (*Fagus sylvatica*) to attack by *Phyllaphis fagi* 245
Farm tree management
Impact of mistletoes (*Amyema miquelii*) on host (*Eucalyptus blakelyi* and *Eucalyptus melliodora*) survival and growth in temperate Australia 55
Fine roots
Spatial and temporal patterns of fine root abundance in a mixed oak–beech forest 11
Fire
Understorey condition scoring of Ghanaian lowland tropical moist forest during stock survey: a technique for regulating the allowable cut in ecologically and structurally degraded production forest 89
Fit statistics
A family of segmented polynomial functions for modelling the border effect on the diameter growth of Ayous (*Triplochiton scleroxylon* K. Schum) 275
Flooding
Intraspecific variation in the response of *Taxodium distichum* seedlings to salinity 203
Foliar analysis
Mineral nutrition, soil factors and growth rates of *Gmelina arborea* plantations in the humid lowlands of northern Costa Rica 135
Foliar nutrient analysis
DRIS evaluation of teak (*Tectona grandis* L.f.) mineral nutrition and effects of nutrition and site quality on teak growth in West Africa 121
Forest condition
Understorey condition scoring of Ghanaian lowland tropical moist forest during stock survey: a technique for regulating the allowable cut in ecologically and structurally degraded production forest 89
Forest degradation
Understorey condition scoring of Ghanaian lowland tropical moist forest during stock survey: a technique for regulating the allowable cut in ecologically and structurally degraded production forest 89
Forest floor
Effects of clearfelling on forest floor accumulation and litter decomposition in a radiata pine plantation 299
Forest gap dynamics
Successional patterns and gap phase dynamics of a humid tropical forest of the Western Ghats of Kerala, India: ground vegetation, biomass, productivity and nutrient cycling 23
Forest management
Understorey condition scoring of Ghanaian lowland tropical moist forest during stock survey: a technique for regulating the allowable cut in ecologically and structurally degraded production forest 89
Forest planning
An approach to public participation in strategic forest management planning 75
Forestry management
Arboreal lichen in uncut and partially cut subalpine fir stands in woodland caribou habitat, northern Idaho and southeastern British Columbia 195
FORET

Modeling changes in habitat conditions in northern hardwoods forests of the Adirondack Mountains of New York 99
Gap model
Dynamic simulations of mixed broadleaved–*Pinus koraiensis* forests in the Changbaishan Biosphere Reserve of China 169
Gas exchange
Effects of light quality on gas exchange and dry matter partitioning in *Eucalyptus grandis* W. Hill ex Maiden 265
Glutamine synthetase
Growth and N nutrition, monitored by enzyme assays, in a hardwood plantation: effects of mulching materials and glyphosate application 231
Gmelina arborea
Mineral nutrition, soil factors and growth rates of *Gmelina arborea* plantations in the humid lowlands of northern Costa Rica 135
Ground vegetation
Successional patterns and gap phase dynamics of a humid tropical forest of the Western Ghats of Kerala, India: ground vegetation, biomass, productivity and nutrient cycling 23
Growth
Growth of native forest species planted on abandoned pasture land in Costa Rica 159
Performance of twelve selected Australian tree species on a saline site in southeast Queensland 255
Growth efficiency
Productivity and growth efficiency in sugar maple forests 319
Growth model
A growth and self-thinning model for pure even-age stands: theory and applications 67
Guard area
A family of segmented polynomial functions for modelling the border effect on the diameter growth of Ayous (*Triplochiton scleroxylon* K. Schum) 275
Habitat modeling
Modeling changes in habitat conditions in northern hardwoods forests of the Adirondack Mountains of New York 99
Hardwood control
Effect of burning and brush treatments on nutrient and soil physical properties in young longleaf pine stands 311
Heat
Effects of wood carbonization on soil and initial development of seedlings in miombo woodland, Zambia 353
Herbicide
Growth and N nutrition, monitored by enzyme assays, in a hardwood plantation: effects of mulching materials and glyphosate application 231
Herbicide injection
Effect of burning and brush treatments on nutrient and soil physical properties in young longleaf pine stands 311
Humid tropical forest
Successional patterns and gap phase dynamics of a humid tropical forest of the Western Ghats of Kerala, India: ground vegetation, biomass, productivity and nutrient cycling 23
Implantation
Afforestation trials with *Prosopis chilensis* (Mol.) Stuntz and *Prosopis flexuosa* D.C. in the Dry Chaco, Argentina 113
International trial
Three year performance of international provenance trials of *Acacia auriculiformis* 147
Interspecific variability
Leaf weight per area and leaf size of 85 Estonian woody species in relation to shade tolerance and light availability 1
Intraspecific variation
Intraspecific variation in the response of *Taxodium distichum* seedlings to salinity 203
K–Mg antagonism
Mineral nutrition, soil factors and growth rates of *Gmelina arborea* plantations in the humid lowlands of northern Costa Rica 135
Leaf morphology
Leaf weight per area and leaf size of 85 Estonian woody species in relation to shade tolerance and light availability 1
Leaf size
Leaf weight per area and leaf size of 85 Estonian woody species in relation to shade tolerance and light availability 1
Light availability
Leaf weight per area and leaf size of 85 Estonian woody species in relation to shade tolerance and light availability 1
Light quality
Effects of light quality on gas exchange and dry matter partitioning in *Eucalyptus grandis* W. Hill ex Maiden 265
Litter decomposition
Effects of clearfelling on forest floor accumulation and litter decomposition in a radiata pine plantation 299
Miombo
Effects of wood carbonization on soil and initial development of seedlings in miombo woodland, Zambia 353
Mixed stand
Spatial and temporal patterns of fine root abundance in a mixed oak–beech forest 11
Multiple-use forestry
An approach to public participation in strategic forest management planning 75
Natural canopy gap
Successional patterns and gap phase dynamics of a humid tropical forest of the Western Ghats of Kerala, India:

ground vegetation, biomass, productivity and nutrient cycling 23
Neem
Influence of rain water harvesting and conservation practices on growth and biomass production of *Azadirachta indica* in the Indian desert 329
Nitrate reductase
Growth and N nutrition, monitored by enzyme assays, in a hardwood plantation: effects of mulching materials and glyphosate application 231
Nitrogen deposition
Nitrogen deposition in *Casuarina equisetifolia* (Forst.) plantation stands in the dry tropics of Sonbhadra, India 341
Nutrient budget
Deposition of atmospheric constituents and its impact on nutrient budgets of oak forests (*Quercus petraea* and *Quercus robur*) in Lower Austria 183
Oak decline
Deposition of atmospheric constituents and its impact on nutrient budgets of oak forests (*Quercus petraea* and *Quercus robur*) in Lower Austria 183
Partial cutting
Arboreal lichen in uncut and partially cut subalpine fir stands in woodland caribou habitat, northern Idaho and southeastern British Columbia 195
Pasture land
Growth of native forest species planted on abandoned pasture land in Costa Rica 159
Performance
Three year performance of international provenance trials of *Acacia auriculiformis* 147
Phyllaphis fagi
Physiological defence reactions of young beech trees (*Fagus sylvatica*) to attack by *Phyllaphis fagi* 245
Pinus palustris Mill.
Effect of burning and brush treatments on nutrient and soil physical properties in young longleaf pine stands 311
Pinus radiata
Effects of clearfelling on forest floor accumulation and litter decomposition in a radiata pine plantation 299
Planting band
A family of segmented polynomial functions for modelling the border effect on the diameter growth of Ayous (*Triplochiton scleroxylon* K. Schum) 275
Pod/seed infestation
Fruit infestation of *Acacia tortilis* (Forsk) Hyne by *Bruchidius andrewesi* Pic. (Coleoptera : Bruchidae) in the Thar desert 349
Prescribed fire
Effect of burning and brush treatments on nutrient and soil physical properties in young longleaf pine stands 311
Productivity
Productivity and growth efficiency in sugar maple forests 319
Prosopis spp.
Afforestation trials with *Prosopis chilensis* (Mol.) Stuntz and *Prosopis flexuosa* D.C. in the Dry Chaco, Argentina 113
Provenance
Three year performance of international provenance trials of *Acacia auriculiformis* 147
Pruning
Impact of mistletoes (*Amyema miquelii*) on host (*Eucalyptus blakelyi* and *Eucalyptus melliodora*) survival and growth in temperate Australia 55
Public participation
An approach to public participation in strategic forest management planning 75
Quantitative loss
Fruit infestation of *Acacia tortilis* (Forsk) Hyne by *Bruchidius andrewesi* Pic. (Coleoptera : Bruchidae) in the Thar desert 349
Quercus petraea
Spatial and temporal patterns of fine root abundance in a mixed oak–beech forest 11
Rain water harvesting
Influence of rain water harvesting and conservation practices on growth and biomass production of *Azadirachta indica* in the Indian desert 329
Rangifer tarandus caribou
Arboreal lichen in uncut and partially cut subalpine fir stands in woodland caribou habitat, northern Idaho and southeastern British Columbia 195
Reafforestation
Mineral nutrition, soil factors and growth rates of *Gmelina arborea* plantations in the humid lowlands of northern Costa Rica 135
Reforestation
Growth of native forest species planted on abandoned pasture land in Costa Rica 159
Regeneration
Dynamic simulations of mixed broadleaved–*Pinus koraiensis* forests in the Changbaishan Biosphere Reserve of China 169
Relative growth rate
Productivity and growth efficiency in sugar maple forests 319
Relative stem profile
Long-term effects of superphosphate fertilization on stem form, taper and stem volume estimation of *Pinus radiata* 285
Rural tree decline
Impact of mistletoes (*Amyema miquelii*) on host (*Eucalyptus blakelyi* and *Eucalyptus melliodora*) survival and growth in temperate Australia 55
Salinity
Intraspecific variation in the response of *Taxodium distichum* seedlings to salinity 203
Performance of twelve selected Australian tree species on a saline site in southeast Queensland 255
Salt tolerance

Performance of twelve selected Australian tree species on a saline site in southeast Queensland 255
Salt tolerance index
Intraspecific variation in the response of *Taxodium distichum* seedlings to salinity 203
Saturated hydraulic conductivity
Changes in physical properties of a soil associated with logging of *Eucalyptus regnans* forest in southeastern Australia 215
Seed germination
Effects of wood carbonization on soil and initial development of seedlings in miombo woodland, Zambia 353
Seedling growth
Effects of wood carbonization on soil and initial development of seedlings in miombo woodland, Zambia 353
Seedling survival
Afforestation trials with *Prosopis chilensis* (Mol.) Stuntz and *Prosopis flexuosa* D.C. in the Dry Chaco, Argentina 113
Segmented polynomial function
A family of segmented polynomial functions for modelling the border effect on the diameter growth of Ayous (*Triplochiton scleroxylon* K. Schum) 275
Selection-felled gap
Successional patterns and gap phase dynamics of a humid tropical forest of the Western Ghats of Kerala, India: ground vegetation, biomass, productivity and nutrient cycling 23
Self-thinning
A growth and self-thinning model for pure even-age stands: theory and applications 67
Shade tolerance
Leaf weight per area and leaf size of 85 Estonian woody species in relation to shade tolerance and light availability 1
Site index
DRIS evaluation of teak (*Tectona grandis* L.f.) mineral nutrition and effects of nutrition and site quality on teak growth in West Africa 121
Soil analysis
DRIS evaluation of teak (*Tectona grandis* L.f.) mineral nutrition and effects of nutrition and site quality on teak growth in West Africa 121
Soil compaction
Changes in physical properties of a soil associated with logging of *Eucalyptus regnans* forest in southeastern Australia 215
Soil disturbance
Changes in physical properties of a soil associated with logging of *Eucalyptus regnans* forest in southeastern Australia 215
Soil nutrient
Effects of wood carbonization on soil and initial development of seedlings in miombo woodland, Zambia 353
Spatial distribution
Spatial and temporal patterns of fine root abundance in a mixed oak–beech forest 11
Spatial heterogeneity
Branch mortality and potential litterfall from Douglas-fir trees in stands of varying density 41
Species differences
Spatial and temporal patterns of fine root abundance in a mixed oak–beech forest 11
Stand density index
A growth and self-thinning model for pure even-age stands: theory and applications 67
Stand growth
Effect of burning and brush treatments on nutrient and soil physical properties in young longleaf pine stands 311
Stemflow
Nitrogen deposition in *Casuarina equisetifolia* (Forst.) plantation stands in the dry tropics of Sonbhadra, India 341
Stock survey
Understorey condition scoring of Ghanaian lowland tropical moist forest during stock survey: a technique for regulating the allowable cut in ecologically and structurally degraded production forest 89
Succession
Dynamic simulations of mixed broadleaved–*Pinus koraiensis* forests in the Changbaishan Biosphere Reserve of China 169
Survival
Afforestation trials with *Prosopis chilensis* (Mol.) Stuntz and *Prosopis flexuosa* D.C. in the Dry Chaco, Argentina 113
Growth of native forest species planted on abandoned pasture land in Costa Rica 159
Performance of twelve selected Australian tree species on a saline site in southeast Queensland 255
Taxodium distichum
Intraspecific variation in the response of *Taxodium distichum* seedlings to salinity 203
Tectona grandis
DRIS evaluation of teak (*Tectona grandis* L.f.) mineral nutrition and effects of nutrition and site quality on teak growth in West Africa 121
Throughfall
Nitrogen deposition in *Casuarina equisetifolia* (Forst.) plantation stands in the dry tropics of Sonbhadra, India 341
Timber harvest
Dynamic simulations of mixed broadleaved–*Pinus koraiensis* forests in the Changbaishan Biosphere Reserve of China 169
Timber harvesting
Changes in physical properties of a soil associated with logging of *Eucalyptus regnans* forest in southeastern Australia 215
Tree form

Growth of native forest species planted on abandoned pasture land in Costa Rica 159
Tree size
Leaf weight per area and leaf size of 85 Estonian woody species in relation to shade tolerance and light availability 1
Tropical lowland moist forest
Understorey condition scoring of Ghanaian lowland tropical moist forest during stock survey: a technique for regulating the allowable cut in ecologically and structurally degraded production forest 89
Tropical soil
Mineral nutrition, soil factors and growth rates of *Gmelina arborea* plantations in the humid lowlands of northern Costa Rica 135
Tropical species
Growth of native forest species planted on abandoned pasture land in Costa Rica 159
Understory clearing
Effect of burning and brush treatments on nutrient and soil physical properties in young longleaf pine stands 311
Volume equation
Long-term effects of superphosphate fertilization on stem form, taper and stem volume estimation of *Pinus radiata* 285
White ash
Growth and N nutrition, monitored by enzyme assays, in a hardwood plantation: effects of mulching materials and glyphosate application 231
Wood carbonization
Effects of wood carbonization on soil and initial development of seedlings in miombo woodland, Zambia 353
Woody plant
Leaf weight per area and leaf size of 85 Estonian woody species in relation to shade tolerance and light availability 1
Yield regulation
Understorey condition scoring of Ghanaian lowland tropical moist forest during stock survey: a technique for regulating the allowable cut in ecologically and structurally degraded production forest 89
